

Modular versatility for limitless combinations

Mosaic 3 piece wiring accessories offer an unrivalled selection of functions in a unique "pick and mix" format that allows you to specify the exact combination of functions required... from single module accessories to diverse multi-functional panels,

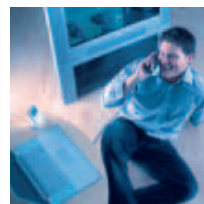

Three simple steps... countless options

Three piece Mosaic is the choice for flexibility. Flexibility in terms of both choice and installation. Simply clip the required mechanisms into the support frames and then clip on the cover plate of your choice.

The clip-on covers allow for a change of style at any time and also simplify decorating as they can be easily removed and then replaced once the work is complete.

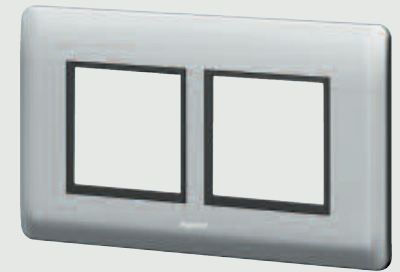

HOME NETWORKS

Mosaic's modular design makes it the ideal choice for use with home networks...

Choose from the Mosaic range itself, or integrate the desired mechanisms with Synergy's modular faceplates.

Mosaic's modular mechanisms are now fully compatible with the Synergy range
